

Gap Analysis summary between Anaesthesia Curricula 2010 & 2021

'CT3 year' requirements

These are the additional learning requirements needed to align the 2010 curriculum to the new 2021 curriculum. This will be used during CT3 "top-up" posts to ensure trainees are able to update their existing training and help to complete the new Stage 1 training.

| 2021 domain of learning | | What is needed to be added to 2010 curriculum to align with 2021 curriculum |
|-------------------------|-------------------------------------|---|
| Professional Domains | Professional behaviours | <ul style="list-style-type: none"> minimal change from 2010 curriculum required Annex A (2010) needs evidencing/training for stage 1. |
| | Management | <ul style="list-style-type: none"> minimal change from 2010 required Annex A (2010) needs evidencing/training for stage 1. |
| | Teamworking | <ul style="list-style-type: none"> minimal change from 2010 required Annex A (2010) needs evidencing/training for stage 1. |
| | QI & Safety | <ul style="list-style-type: none"> minimal change from 2010 required Annex A (2010) needs evidencing/training for stage 1 needs good grounding in QI methodology and human factors training. |
| | Safeguarding | <ul style="list-style-type: none"> minimal change from 2010 required Annex A (2010) needs evidencing/training for stage 1 child protection needs emphasizing. |
| | Teaching | <ul style="list-style-type: none"> minimal change from 2010 required Annex A (2010) needs evidencing/training for stage 1. |
| | Research | <ul style="list-style-type: none"> minimal change from 2010 required Annex A (2010) needs evidencing/training for stage 1 complete GCP certificate. |
| Clinical Domains | POM | <ul style="list-style-type: none"> increased POM exposure required e.g. attendance in clinics, greater knowledge of guidelines. |
| | General Anaesthesia | <ul style="list-style-type: none"> greater exposure to ASA 1-3 for emergency and elective anaesthesia greater exposure to obese, frail and elderly patients confidence with TIVA greater exposure and confidence with children 5 and over for non-complex surgery able to be first on-call for labour ward dealing with ASA 1-3 parturients. |
| | Regional Anaesthesia | <ul style="list-style-type: none"> minimal change from 2010 required Annex A (2010) needs evidencing/training for stage 1 confidence in simple ultrasound guided-blocks. |
| | Resuscitation & transfer | <ul style="list-style-type: none"> minimal change from 2010 required Annex A (2010) needs evidencing/training for stage 1 inter-hospital transfer. |
| | Sedation | <ul style="list-style-type: none"> minimal change from 2010 required Annex A (2010) needs evidencing/training for stage 1. |
| | Pain | <ul style="list-style-type: none"> minimal change from 2010 required Annex A (2010) needs evidencing/training for stage 1 understanding of biopsychosocial approach to pain. |
| | Intensive care | <ul style="list-style-type: none"> total of 6/12 to meet 2021 levels of capabilities at stage 1 (equivalent to ACCS training - assuming GMC approval). |
